Following up our staff meeting this morning – below is an email listing five actions potentially affected by the WH memo on rules submitted or to be submitted to OFR. They're all air. This email lists all five actions, as the WY and UT interstate transport actions are two separate actions.

Hi Deb – Here are the Air Program Federal Register final rulemaking updates you requested.

Wyoming - Infrastructure Requirements for the 2008 Lead, 2008 Ozone, 2010 NO₂, 2010 SO₂, and 2012 PM_{2.5} National Ambient Air Quality Standards (NAAQS)

Uinta Basin Federal Implementation Plan (FIP)

- The Air Program and OAQPS (Uinta Basin FIP Team) received notification from OMB today, January 23rd, that they would be returning the FIP for existing oil and gas sources on the Uintah and Ouray Indian Reservation (U&O Reservation).

Ex. 5 - Deliberative Process

Background:

- The proposed FIP rule was accepted by OMB for review on June 22, 2016.
- On July 26, 2016 we received 90+ comments from the interagency review process.
- OMB held two meetings requested by the Environmental Defense Fund (July 25, 2016) and Western Energy Alliance (August 26, 2016).

Ex. 5 - Deliberative Process

- The Administrator received two letters from Governor Herbert supporting the FIP, but questioning if our proposed rule was no more stringent than what Utah requires for oil/gas sources with the exterior boundaries of the reservation.

Martin, Carl and Monica,

As you've likely heard, all Federal Register Notices that have not yet been published have been pulled back and 2 Region 8 CAA related actions are impacted. Deb is having a call on this topic

Ex. 5 - Deliberative Process

In addition, while the U&O FIP is not listed in the attachments, since it has already been pulled back from OMB, Deb would appreciate an update on that action as well.

I've pulled the 2 R8 topics from the "Actions Signed Not Published" attachment and pasted them below.

Please provide your comments by 2:30pm to allow time for Deb to review prior to her call.

Thanks and let us know how we can help.
